

RCM200 SMALL BEARING BLOCK

Tag	Dimension	Tolerance	Description
A	1.00	± 0.002	center shaft height
B	2.00	± 0.010	width, length, height
C	1.00	± 0.010	edge to mounting hole center
D	1.25	± 0.010	centers of mounting holes
E	0.625	± 0.005	bearing center to hole center
F	0.5000	- 0.0005	shaft diameter

Notes:

- All dimensions in inches
- Material is 6061 aluminum
- Weight: approx. 8.2 oz
- Use precision grounded shaft or sand down O1 drill rod in a lathe
- Most 1/2" bolts also will fit the bearings
- Bearing data: double shielded ball, dynamic load 800 lb. / static 500 lb.
- Mounting is by 1/4-20 threads
